

Enter *Kingdom Immortal*, the new album from **Midnite Hellion**. *Kingdom Immortal* contains eight brand-new cuts of New Jersey-style Heavy Metal.

Formed in 2011 by drummer Drew Rizzo, **Midnite Hellion** took shape with the addition of bassist and vocalist Rich Kubik in 2016. Joined by lead guitarist Charles Kogler, the band entered Pyramid Sound Studios in Ithaca, NY in August 2019 with producer Alex Perialas (Anthrax/S.O.D, OverKill, Testament, Joe Bonamassa). Recording for *Kingdom Immortal* was completed in six days. The vinyl mastering was cut at Infrasonic Sound by Daniel Bacigalupi (Barry Gibb, Dolly Parton, Stray Cats, Willie Nelson). **Midnite Hellion** will be on the road all summer in 2022 supporting **Anvil** on their full US tour.

Their debut album, *Condemned To Hell*, catapulted **Midnite Hellion** into the metal markets in 2017. Heavy regional and national touring in support of the album was in order, most notably supporting select dates of Otep's US tour in December 2018.
